

ECE Weekly

The Ohio State University Department of Electrical and Computer Engineering

Ed. 11.3.15

Alumni Spotlight:

Robert Borel
Class of 1965

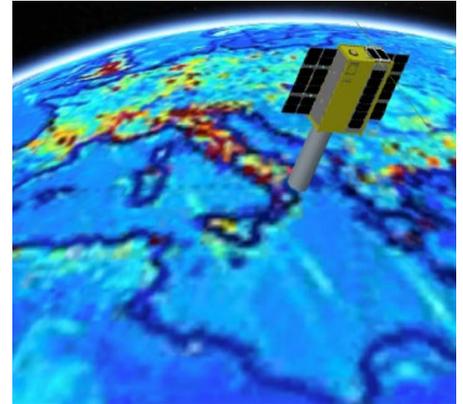

Borel: Staying connected to ECE

For the latest ECE Alumni Spotlight Video Series, we talked to 1965 grad Robert Borel about why he has remained so active with his alma mater over the years. Watch the video here: <http://go.osu.edu/Borel>

CubeRRT in Via Satellite

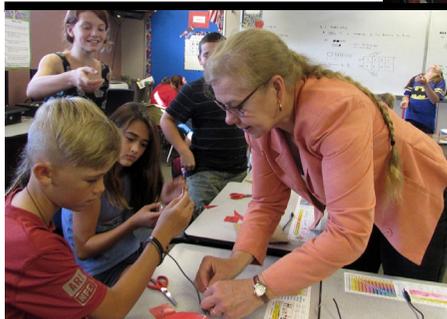

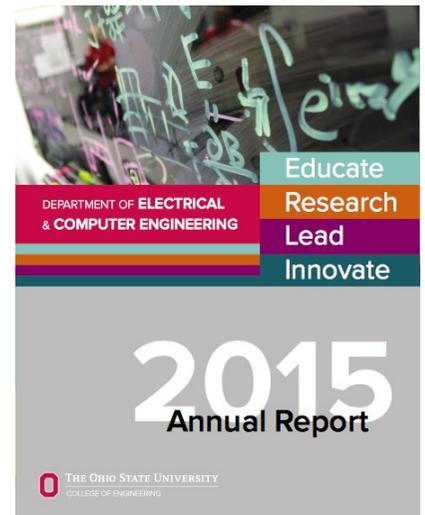

Last week's ECE coverage of the "Navigating the Noise," look into **Joel Johnson's** CubeRRT radio frequency interference research program for NASA was featured in the *Via Satellite Magazine*. Thanks to them for the support.

Ozguner wins IEEE Outstanding Research Award

ECE's Retiree-Professor Emeritus, **Umit Ozguner**, received the IEEE Intelligent Transportation Systems Society's "Outstanding Research Award." The first award in 2006 was won by former ECE prof. **Robert Fenton**. Ohio State is now the only university to have two professors win the prestigious award. Find the full article here: <http://go.osu.edu/Ozguner-ITS>

Cross Country STEM

ECE K-12 Engineering Outreach program leader **Betty Lise Anderson** took her passion for teaching cross country last week, meeting with approximately 130 students at an elementary school in Arizona while she was on autumn break.
