The Ohio State University Department of Electrical and Computer Engineering

ECE Autumn 2016 Outgoing Classes

Talking about diversity is one thing, but celebrating it is entirely different. Each Electrical and Computer Engineering (ECE) Class Photo reveals a rich tapestry of cultures, ethnicities and technical minds from around the world. Watch the video to hear grads talk about where they are headed next.

NASA launch seeks deeper understanding of hurricanes, ECE team assists

Although delayed today, NASA plans to launch the Cyclone Global Navigation Satellite System (CYGNSS). Once in place, the technology will allow for a deeper understanding of how and why hurricanes develop and intensify. An Ohio State team of scientists helped make it a reality.

PES awards three at ECE

The IEEE Power and Energy Society recently presented scholarship awards to three ECE students this year.

Among the Region 2 Mid-Atlantic winners, undergraduates **Carl Staiger** and **Kyle Martin** both received \$2,000, whereas **Mary Scherer** won \$3,000 from the PES Scholarship Plus Scholar as a three-time winner.
