

ECE Weekly

The Ohio State University Department of Electrical and Computer Engineering

The **Buckeye Current** student motorcycle team goes electric at the Pikes Peak International Hill Climb SUNDAY. They won't settle for anything less than breaking records. Watch a video I did to help celebrate their work and show our support. It features interviews with **ECE students** involved and professor **Steven Bibyk**. Go Bucks!

Other news...

- OnCampus writes about the Nikola Labs researchers: <http://go.osu.edu/nikola>
- We created a public relations survey to help share the research work from our graduating Ph.D. students: <http://go.osu.edu/phd>

Very happy to pass along the great news. ECE Assistant Professor **Lisa Fiorentini** and family announced the birth of her healthy baby boy, Jackson Williams. Enjoy, Lisa!

Columbus Business First writes about how **ECE interns** are helping a local entrepreneur power the "Internet of Things."

Read the full article here:
