

ECE Weekly

Ed. 7.21.15

The Ohio State University Department of Electrical and Computer Engineering

Catch the NBC4 TV coverage of our High Voltage Lab recently? Meteorologist Ben Gelber stopped by to discuss lightning safety with **Prof. Emeritus Steven Sebo**. Here is the full piece that ran:

<http://nbc4i.com/2015/07/12/lightning-laboratory/>

See more pictures from the visit:

Pluto finally gets its close-up

The Women in Engineering RISE campers stopped by the Dreese robotics lab. Find pictures from the events here:

<http://go.osu.edu/wie-pics>

I also put together this short video of them working Betty Lise Anderson and Clayton Greenbaum's K-12 Engineering Outreach heart rate monitor activity:

Did you know that the man behind the Mershon Auditorium and Center was an Ohio State University EE alumnus? Columbus Monthly delves further into the story: <http://go.osu.edu/mershon>

Congrats to @OhioStateECE sophomore **Nicholas Smith** for making the Big Ten Distinguished Scholars list for the 2014-2015 academic year. Story: <http://go.osu.edu/smith>

Alumni Spotlight:

Dr. Robert Dybdal
Class of '64 and '68

Dybdal named COE Distinguished Alumnus

EE Graduate **Dr. Robert Dybdal** was a recipient of the College of Engineering's **Distinguished Alumnus Award** earlier this year. He remains active at ECE today, as an adjunct professor, supporter of research at the ElectroScience Lab, and member of the ECE Campaign Committee. Find my article and video interview with him here:

<http://go.osu.edu/dybdal>

New ECE "Current Research" page posts showcasing work by **Umit Catalurek, You Han and Eylem Ekici** at the link:

<http://go.osu.edu/research-ECE>

Congratulations to ElectroScience Lab Ph.D. student **Cosan Caglayan** and advisor **Kubilay Sertel** for winning the IEEE Antennas and Propagation Society Doctoral Research Award.
