ESL 75th Anniversary Feature: Nima Ghalichechian

In the drive to advance wireless communication, researchers at Ohio State's ElectroScience Laboratory are exploring the concept of miniaturized "hovering" antennas.

ECE Assistant Professor **Nima Ghalichechian** and his team of students just won a three-year \$300,000 National Science Foundation (NSF) grant award from the Division of Electrical, Communication and Cyber Systems.

The department is highlighting different ESL researchers, leading up to the facility's 75th Anniversary event on Oct. 6. Full story: <http://go.osu.edu/nima75>
